

44. HERITAGE AREAS AND CORRIDORS

We oppose heritage areas and corridors, heritage rivers, scenic byways, and any other such federal or state programs that:

1. Have regulatory authority.
2. Have the power of eminent domain.
3. Are involuntary.
4. Are not grassroots, consensus-based programs that actively involve agricultural interests in their creation, development, and execution.
5. Do not provide a means for a private property owner, a county, or other state or municipal authority to opt out of the program.
